

# Fabian Reyes

Assistant Superintendent

While working for a general contractor on mixed use, multi-family, and high-density projects, Fabian gained experience managing and supervising jobsite work for all trades including structural, mechanical, plumbing, electrical, drywall, finish carpentry, and landscaping. His work on rehabs and on design build projects make him a great fit for D+H.

At D+H, Fabian helps plan, coordinate, and supervise on-site and off-site functions including scheduling, engineering, and material control. He also provides technical assistance for interpretation of drawings and advises on construction methods and equipment.
