

Jaime Guzman

Assistant Project Manager

Jaime brings a diverse construction background spanning healthcare facilities, commercial projects, and public infrastructure. With experience in both field operations and project engineering, he offers a practical understanding of construction processes, scheduling, and quality control. Known for his attention to detail and collaborative approach, Jaime excels at navigating complex project requirements and solving challenges.

As an Assistant Project Manager at D+H, Jaime supports projects from preconstruction through closeout, managing documentation, subcontractor communication, and project schedules. Working closely with project managers, field teams, and consultants, he helps streamline operations, maintain project momentum, and ensure quality execution.
