

Kaj Kardel

Assistant Superintendent

As an industry trained professional working in the Bay Area for over two decades, Kaj's early career focused on waterproofing and architectural sheet metal. With projects ranging from post fire storm houses in the Oakland and Berkeley Hills to the renovation of 200 units for the Oakland Housing Authority, his experience led him to site supervision where he enjoys working with others to strategize on project milestones.

At D+H, Kaj helps plan, coordinate, and supervise on-site and off-site functions including scheduling, engineering, and material control. He also provides technical assistance for interpretation of drawings and advises on construction methods and equipment.
