

Marshall Snow

President

As a fourth-generation contractor, Marshall has been involved in numerous aspects of the construction industry for most of his life. He has worked on various project types, ranging from historic restoration to new custom homes and affordable housing. Professionally, he has worked for nonprofit developers, community development groups, and city planning departments, focusing on sustainable development, planning, and policies at the local and regional levels. Marshall is responsible for estimating, scheduling, and overseeing projects through completion.
