

# Oskar Contreras

Project Manager & Estimator

With over twenty years of experience, Oskar has been involved in all aspects of construction — construction laborer, draftsman, project engineer, project manager, and estimator. Previous work has included cost engineering, CAD, project scheduling, project control activities, contractor bid reviews, and productivity analysis. As Project Manager at D&H, Oskar is the primary point of contact with the owner and architect, and he works directly with the job site superintendent in scheduling and coordinating employees, subcontractors, and vendors, and managing the project budget. Oskar is fluent in English and Spanish. He's a licensed amateur radio operator and IT enthusiast.
